

The EBS System will remain in place for social golf while we have Track and Trace restrictions.

Once Track and Trace is removed, play from the 9th tee will once again be permitted providing the 8th hole is clear.

If members decide not to play in their allotted tee time, please cancel booking.

Any system adopted will have been voted on and approved by the majority of members.

Members will be given priority bookings for Knockout competitions.

The intention is to move the opening of men's competitions 1 week earlier than currently. This will allow more time to enter and will also provide adequate opportunity to condense the draw and release any spare tees to social golf.

Competitions 8/7 minutes' currently on trial to ensure this is safe and that appropriate social distances can be maintained.

Competitions are an integral part of our club.

All club team games and knockouts are now clearly displayed on our EBS system

The club has introduced a new Ambassador system to help integrate new members into our club.

Regardless of the voting outcome, all competitions will be booked through the EBS.

Under our current EBS system, it is not possible to support a random draw in member competitions however, this may be possible with other systems in the future.

Changing the EBS booking system to daily creates 7 Fastest Finger First.

Yes, EBS makes it difficult to book consecutive tee times for groups. There are currently no plans to differentiate between member groups of different sizes when booking within the EBS system.

We believe the hybrid system is workable provided that all members check EBS prior to arrival at the club.

Should the hybrid system be adopted, all TU&P players must be clear of the 1st tee 10 minutes prior to the first EBS booking.

Under the hybrid system members may turn up and play or use the EBS.

The hybrid system was designed to give equal opportunity to all members every day AM or PM.

VOTING OPTIONS

- A. EBS be adopted for all golf.
- B. A hybrid system which encompasses TU&P and EBS.
(The mix of TU&P and EBS times will be reviewed and monitored closely and may be changed according to demand.)
- C. Turn-up-and Play for all Social Golf, EBS for everything else.

In order for the adopted option being supported by the majority voting, the ballot will be in 2 parts.

The initial ballot will ask for members to **select the option that is least favoured**. The second ballot, around a week later, will be for the most favoured option of the remaining two.
